We are happy to announce the results of the "GCET Coding Challenge 2021" held on 14-04-2021. The response we received for the same was extremely overwhelming and it was very difficult for us to choose the winners. But competition has no value without a winner, hence after a lot of brainstorming, anti-plagiarism check and the recommendations of the department committee, we have come up with three winners.

we are proud to announce the winners and also congratulate the participants. If your name is not listed as one of the winners do not get discouraged as there will be many more opportunities in the future. Such competitions are a stepping stone and each experience helps you to learn. Hence, a positive attitude is what makes you extraordinary.

The names of the winners are:
